EXPERIENCE

- **Intern, Fulcrum Digital** [June 2024 – Present]

Currently working as an AI Intern where I have gained hands-on experience for developing and testing API using Postman.

- **Intern, Oasis Infobyte** [May 2024 – June 2024]

I had a virtual Internship where I worked on diverse projects. Developed Python based Iris-flower classification, e-mail spam detection and unemployment analysis.

EDUCATION

- College (SGBAU) | Babasaheb Naik College of Engineering, Pusad. | [(2021-2025) – Appeared for Final year (AI&DS)]
- HSC | Shri. Shivaji Jr. College, Pusad. | (2021) | 89.33%
- SSC | K. D. High School, Pusad. | (2019) | 88.00%

SKILLS

Python
C
HTML

Power BI
MySQL
Postman

PROJECTS

1. **Development and testing API using Postman**

Performed different tasks like (text2text, text2image, image2text, object detection, etc). Went through ML projects applying the concepts of ML, DL, LLM's, etc.

2. **E-mail spam detection with ML**

Build a Python based spam detector using ML algorithms, allowing for accurate classification of e-mails as spam or non-spam.

3. **Unemployment analysis with Python**

Conducted an indepth analysis of the unemployment rate, focusing on the impact of the Covid-19 pandemic.
